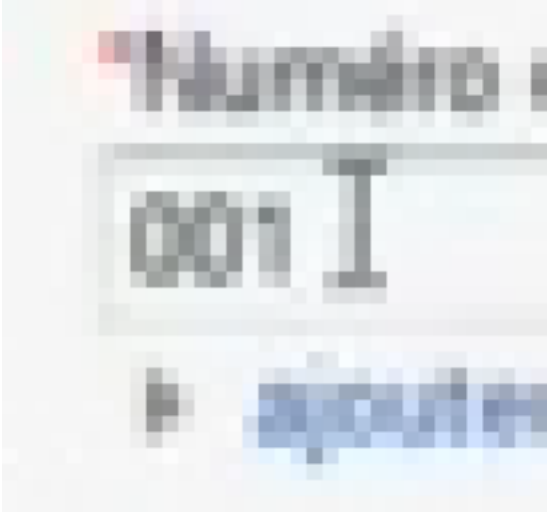
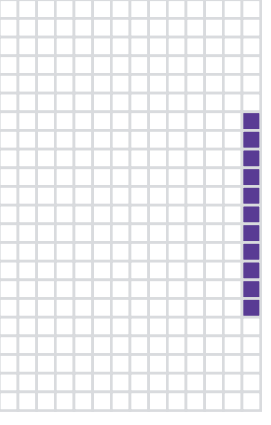
Exact footprint check / actual decoded frame 246

Prepared participant-number pixels beside the caret. Error maps below are false color, not visual appearance.

Actual source crop / enlarged



Previous mapping / RGB error



11 changed pixels; max 1 RGB code

Each tile = one pixel in the 14 x 22 number ROI

Current mapping / RGB error

0 changed pixels; max 0 RGB code

Each tile = one pixel in the 14 x 22 number ROI

Previous: 11 pixels changed by at most 1 RGB code (0-255 scale). Current: zero. No different-number or readability claim.

The independent current qualification checks this number ROI across all 360 frames; this figure shows one frame only.
